

Rohit Rubber Corporation Committed to quality and customer satisfaction

Rohit Group has served and built up client-relationships across diverse industries for over 40 years. Over the years, they have come to be known for their consistent performance in supplying high-quality raw materials on time

The Rohit Group prides itself on being more than “just another trading company”. It is a group of conscientious people who look after the individual needs of their customers. They provide specialised service and an ever-increasing range of products to their clients. They have served and built up client-relationships across diverse industries for over 40

years. Over the years, they have come to be known for their consistent performance in supplying high quality raw materials on time. Their dedicated

and youthful marketing team, headed by experienced promoters, helps the company scale newer heights each year.

Rohit Group's Principals include some of India's leading companies – NOCIL, Himadri Chemicals & Industries Ltd, JG Chemicals, LORD, McLube, Momentive and Goldstab. They attest the Group's consistent performance in supplying quality raw materials. The Group's products include rubber chemicals, carbon blacks, zinc oxides, bonding agents, release systems, silicone and silicone products, natural and synthetic rubbers, waxes, resins and many more. In an ever expanding environment, Rohit team is keen to share its potential and build strong relationships with companies from across the globe wanting a presence in India.

Priorities

High-performance raw materials are what manufacturers look for. Trust and confidence

in sourcing critical high performing raw material becomes an intrinsic part of a manufacturer's formula. End product users entertain you when your product is backed by the use of consistently performing raw material. Rohit's Principals follow the latest systems, based on International Standards. They ensure that their team of dedicated, well-trained technical persons, backed by high-quality testing facilities, are just a phone call away to quickly attend to the customers' problems, needing speedy solutions. This saves losses in product and production down time.

Just-In-Time (JIT) supplies enable you to cut costs, so essential in today's competitive world. You cannot afford to hold inventory more than your immediate need. Rohit's strategically located warehouses do the holding for you at all times, thereby cutting inventory costs and headaches.

Principals and products

Rohit's major Principals and Products are the following:

NOCIL Ltd: Accelerators: MBT, MBTS, FCBS, MOR; ZDC, ZDBC, TMT, ZMBT; anti-oxidant/ozonants: TMQ, P13, SP; retarder: PVI

Himadri Chemicals & Industries Ltd: Carbon blacks: N220, N330, N550, N660, N774; coal tar pitch: Specialized for the graphite electrode industry; advanced carbon material MCMB: Anodes for lithium iron batteries, the only company outside Japan to manufacture this technology.

JG Chemicals: One of India's largest manufacturers of zinc oxide; grades for industries including: rubber, pharma, cosmetic, paints, catalyst, ceramic, glass.

LORD: Adhesives; primers; speciality substrates; tply one coat adhesives; covercoats; flock adhesives.

Vinod Bhatia (left) and Anil Bhatia, partners of Rohit Group

McLube: Release systems; anti-stick coatings for moulding, laminating, extruding, filament winding, & hose manufacturing.

Momentive: General purpose silicone rubbers; FDA-approved tubing silicone rubbers; high-temperature grade silicone rubbers; high-tear automotive grade silicone rubbers; NPC grades of silicone rubber; fluoro silicone rubber; liquid silicone rubber (LSR); RTV; sealants.

Kalpatru Organics Pvt Ltd: Silicone emulsion & fluids; metallic stearates: ZN/CA/AL; barium cadmium stabilizer (810); TNPP, epoxy soya oil.

Additional products

The following are Rohit's additional products:

Natural rubbers: ISNR 10, 20, 3L, 5CV; PLC 1x,1,2,3; RSS 1x, RMA 4,5, Lot; EBC 1x; skim.

Imported: STRXL; PLC 1x /1.

Synthetic rubbers: Sourced from Korea, Japan, China, Europe, Russia, America; Nitrile rubbers (NBR): High, low, ultra high, medium; styrene butadiene rubbers (SBR): 1502/ 1712; Polybutadiene rubber (PBR): GP/1220/BR01; EPDM rubbers: Oil extended and non-oil extended; Neoprene rubbers (CR); hypalon; viton; polyacrylic rubbers; butyl: bromo and chloro; PVC nitrile: 70:30, 50:50; TPR & TPV.

Waxes: Mc wax; paraffin; speciality.

Reinforcing agents: Specialty silicas; nylon fabric

Processing aids: Processing oils, peroxides; stearic acids; insoluble sulphurs; resins and tackifiers; wood rosins; reclaim rubbers.

Milestones

1968: Rohit rubber corporation was formed with a focus on offering quality products to the rubber industry. The company quickly expanded to supply to other sectors, including lube, pharmaceutical and healthcare, plastic masterbatch, and printing inks.

1986: Chosen over a number of other dealers to represent NOCIL – India's largest and most respected rubber chemical company – to market their range of products in the Western region. NOCIL is soon poised to become one of the leaders in the world of rubber chemicals.

1992: The company was chosen by Lord Corporation USA, a market leader in bonding solutions, through its Indian arm, Lord India, to represent them for their range of bonding solutions and market their products.

1996: The company was chosen by JG Chemicals Pvt. Ltd. – a BDJ Group company and a leading supplier to the automotive tyre industry – to represent them for their range of zinc oxides.

2000: The company was chosen to represent McLube USA, through their Indian arm, McLube Asia, to market their range of release agents in the automotive and industrial sectors.

2001: The company was chosen by Kalpataru Organics Pvt Ltd to market their range of silicone fluids, emulsions, stearates and stabilisers.

2006: The company was chosen by Imperial Waterproofing Industries Pvt Ltd to market their range of PVC nitriles under the Rubaloy brand.

2007: The company was chosen by Momentive Performance Materials, formally GE Silicones, to market their range of silicone rubbers.

2008: The company was chosen by Gujrat Paraffins Pvt Ltd to market their range of waxes.

2009: The company was chosen by Himadri Chemicals – India's fastest growing carbon company and India's only green field carbon plant – to represent them and market their range of carbon blacks.
